

DECLARATION OF STATUS AS A SMALL ENTERPRISE

The Danish programmes for the European Regional Development Fund (ERDF) and the European Social Fund (ESF) support growth and employment in small and medium-sized enterprises (SME). If the enterprises by participating in a project that is co-financed by the ERDF or the ESF thereby receive state aid, it is important to document whether the enterprise is an SME, just as it is important to document whether the enterprise is a small enterprise.¹⁾ It is therefore important that you familiarise yourself with the definition of a small enterprise as stated here. Once you have ensured that you comply with the small enterprise requirements, you must sign at the bottom of the page and hand in the declaration to the project manager of your project.

Small enterprises are enterprises that

- employ less than 50 persons and
- have annual sales and/or a total annual balance sheet of no more than EUR 10 million.

However, ownership and group structure are important because a connection between two or more enterprises may mean that they may jointly have the same possibilities as large enterprises when it comes to access to capital etc. This means that they cannot receive aid according to the rules governing small and medium-sized enterprises, but are considered one large enterprise.²⁾

If your enterprise owns or is wholly or partly owned by others, you must therefore read further via this link until you can assess whether you can sign the declaration below:
